POLICY

6.50 SCHOOLS - BUILDINGS, GROUNDS AND FACILITIES - USE OF

It is the policy of the Dufferin-Peel Catholic District School Board to make school buildings; grounds and facilities available for community use to the fullest extent possible within established regulations made by the Board.

It is the intent of the Board to have its facilities used in the best interests of the community when they are not required for school use. The first priority of the Board is education and, in this context, due regard shall be given to the preservation of the educational program of the school and the protection of buildings, grounds, facilities and equipment.

Since the Ministry of Education funding formula does not recognize the use of schools by the community it is essential the use of Board facilities and organizations be based on a minimum of actual cost recovery. To do otherwise would necessitate the reduction of funding to other areas of education.

The issuance of a permit is subject to the following conditions. Any individual or group that cannot subscribe to the following conditions of use will not be issued a permit or if a permit has been issued, it will be cancelled.

The Board may enter into unique arrangements with parties (i.e. leases, joint-use agreements, covenants, contracts, etc.) under terms and conditions that differ from those within this Policy and Regulations.
